

Table of Contents

Intelligent Wireless Environmental Monitoring System of University Laboratory Based on Internet of Things	1
--	----------

Jiang Wenwen, Zhai Linbo, Zhang Feifan, Gong Wenjing, Gong Yuxin

The Research and Design of a New Electronic Communication Counter for Sensors	6
--	----------

Zou Hongsen, Hu Miaolong, Wang Hongli, Chen Rui, Zhang Yiying

Study of logistics distribution route based on improved genetic algorithm and ant colony optimization algorithm	11
--	-----------

Su Yue, Sun Yi

Design and Realization of City Tourism Route Intelligent Programming System	17
--	-----------

Zhou Xiao, Zhang Yiming, Chen Li, Lin Haizhao, Zhu Shuai

Compressive Sensing Based Data Collection in Wireless Sensor Networks	23
--	-----------

Liu Yuhong and Fu Jie
